About real estate

The exclusive Kladno Living development project will offer 371 apartments in five modern buildings that combine elegant architecture and harmony with the surrounding greenery. We are creating an environment where living becomes a real home and where quality is part of every detail.

Living here is not just about four walls – it is an environment that supports your lifestyle. The proximity of the city and nature will offer you everyday comfort and freedom of choice. Kladno Living is a place where a new chapter in your life begins.

The apartments will feature underfloor heating, heat recovery, triple-glazed windows, photovoltaics, and green roofs.

Expected official sales launch: October 2025
