About real estate

This project was successfully sold out.

We offer for sale apartments in the desirable location of Prague 6 - Lysolaje. The unobtrusive architecture of the low-energy four-storey building with a lift offers 10 apartments with a layout of 2+kk to 4+kk and the same number of separate garages. The apartment building is built of high quality materials, includes first class insulation and a beautiful gable roof. Together with triple glazed windows, the basic prerequisites for economical operation are met. The façade of the house consists of natural opaca on the street side. The wooden Euro windows are complemented by shutters, roller shutters or blinds. Heating is provided by a heat pump, which significantly reduces operating costs.

The Lysolaje district offers all the comforts of modern living near the centre. In the neighboring area there is a kindergarten, primary school and also a sports center Suchdol. There is also a shopping centre OC Šestka nearby. This locality is famous for the natural monument Housle, the miraculous well in which the Lysolajský brook springs and the beautiful romantic landscape. The attractiveness of the place is also increased by the nearby Mala Strana and Prague Castle. The uniqueness of this location also creates excellent conditions for recreation, sports and cultural activities for all generations.
