About real estate

We offer for sale fully equipped apartments in the luxury complex Llana Beach Resort & Spa. The resort itself is an oasis of tranquility on the sunny Cape Verdean island of Sal, providing an unforgettable holiday experience all year round, and above all it is an ideal investment project.

The apartments are situated in two-storey villa-type houses with an ideal layout. The units offered are designed as a hotel suite with one bedroom and kitchenette. The living space has direct access, through large glass doors, to a beautiful terrace or garden with direct access to the pools. Each suite in the building has a fully equipped bathroom with bathtub.

Residents have access to two large adult pools at the resort, which are surrounded by beautiful gardens, two children's pools with kids club and YHI SPA. The resort includes six different restaurants, four bars, a beautysalon and a large number of shops.

The Cape Verde Islands boast some of the best beaches in the world, famous for their fine white sand and crystal clear water. With a year-round sunny climate and a thriving tourism industry, Cape Verde provides the ideal economic and environmental conditions for successful property investment.

Purchasing a property in this five-star resort opens up a wealth of ownership benefits. The apartments are sold on the principle of absolute ownership. The owner decides how to manage his property, whether he chooses to keep it for his own use, rent the property independently, through agents, or take advantage of the owner's hotel program offered. The program offers investors the opportunity for consistent and ongoing rental income. Everything is taken care of and you will receive a share of the rental income, plus you are entitled to vacation in your property for up to 5 weeks per year.

It's safe to say that you'll get the best possible mix of use and value for your investment at the same time. The developer of the project guarantees a rental income of five percent per annum in five years, with the current rate being considerably higher.
