Offer status	Sold	Floor area	49 m²
Energy performance of the building	C - Economical	Floor	ground floor
Number of floors	3	Number of underground floors	1
Cellar	Yes		

About real estate

We offer a mountain apartment in a new project in Pec pod Sněžkou. It is a new building of 33 apartments with common facilities in an exceptional location at an altitude of 1000 m above sea level directly on the Zahrádky ski slope. You can get unique opportunities to spend your time in the mountains "in your own" and at the same time invest with a return. The apartments will be professionally managed with the provision of rentals and services (catering, transport, mountain program, etc.). All this is taking shape and you can be there at the very beginning and choose the best apartment for you.

The offered apartment has a layout of 2+kt and a total area of 46.4 sqm. It offers a bedroom, a living room and a bathroom with shower and toilet. The orientation of the windows is to the S with a view up the slope towards the top of the hill. The apartment has a cellar.

The building and the apartments are designed by architects to provide comfort and convenience and attract long-term and prospective tenants. The management and rental of the apartments will be provided to a high quality with a personal touch in cooperation with a reputable local hotel operator. At the same time, the apartments are VAT deductible so that this investment can be incorporated into your business strategy.

The well-known mountain location of Pec pod Sněžkou probably needs little introduction. In the nearby centre of Pec you will find all the infrastructure including restaurants, shops, a doctor, sports equipment rental, ski schools and nurseries or a local swimming pool and bobsleigh run. You can hike and hike all year round, directly from the apartments to the top of Sněžka or Liščí Mountains, to the Černohorské peat bog or the Giant Mine. Transport from Prague is smooth, by car about 100 minutes from Černý Most. Parking and transport within Pec will be provided by the project operator.

The project is expected to be completed by the end of 2026.

For more information please contact our broker.
