## About real estate

We offer for sale a 65 sqm apartment in a newly built residential project in Premantura, in the middle of Croatian Istria. The chamber project with only six apartments is located at the Kamenjak National Park, a short walk from the beach.

The apartment is located on the 2nd floor of the building and offers a large terrace with views, an ideal place to relax and spend time with friends and family. There are two bedrooms, a bathroom and a kitchen that is connected to the dining room and living room.

The project has placed great emphasis on technical workmanship and quality of design. The apartment has a parking space for one car.

Premantura is situated on a narrow, completely flat peninsula Kamenjak. The town is famous for oyster farming. The village is set in beautiful lowland nature in the middle of a narrow promontory, covered with lush greenery and washed by the Adriatic Sea. It is an ideal environment for lovers of various water sports - diving, fishing, surfing. It is a great location with complete civic amenities. The beautiful beach is just a five-minute walk from the residence.

The project is scheduled for completion in 1Q 2026.
