Cellar	<b>Yes</b>		

## About real estate

We are offering for sale a luxury penthouse of 3+kt and 101 sqm in a newly emerging luxury project, located in the heart of Borik - an emerging district of Zadar.

This apartment is located on the top floor and offers a rooftop spacious terrace of 76 sqm with spectacular sea views. There are also two bedrooms, a bathroom, a guest toilet, a utility room and a spacious living room connected to the dining room and kitchen. The interior reflects the principles of sustainability with smart home features available to its residents. Thanks to the large aluminium windows, the apartment gets plenty of natural light, while the electrically controlled blinds allow for possible blackout.

The standard of the entire project is of a very high standard, with air conditioning, underfloor heating and a smart home being standard. The architecture and design of the building honours the traditional local Adriatic building style, its elements integrated with new trends combined with Swiss innovative technologies.

The entire complex is connected by green areas with a park and a children's playground. Parking is provided in the underground garages in the basement, where there are also storage spaces.

The location of the project is truly unique, being a short walk from the local beach and marina. On foot you can reach the historic centre of Zadar within 10 minutes with a pleasant walk along the sea. In addition, Borik offers plenty of great restaurants, shops and there is also the renowned 5\* Falkensteiner hotel, which has a great spa and wellness area open to the public. The project also includes a shopping mall where residents can not only buy groceries, fresh baked goods, drugstore but also use the gym and spend time in a cozy restaurant with a wonderful view of the sea coast and the local marina.

The project is scheduled for completion in 4Q 2024.
