Nová Cihelna is a development project that not only combines the latest technology, sustainability and architecture, but also provides its users with a connection and close contact with nature, the surrounding greenery and common space. The Kladno - Rozdělov urban district is the best place to live with nature within easy reach and at the same time a perfect connection to Prague.

The Energy Class A project emphasizes low-energy operation and sustainability. It includes heating with an air-to-water heat pump, underfloor heating with aftercooling, controlled ventilation with heat recovery and an efficient water solution.
